## FROM W. T. TIBBS

ENCHANTING SCENERY ON AFRICAN COAST—"HIS GIRLS" ARE HAVING A FINE TIME.

Wishes For Another Rough Sea.

Below we give a letter from W. T. Tibbs, and we hope you will then to have many more. We now notify him that he is booked for a series of public lectures when he returns:

S. S. "Celtic"

Off the Harbor of Algiers, Africa, Friday Night, Feb. 22, 1902. Nothing extraordinary has happened since we left Gibraltar. Many tourists landed at Algiers last night at six o'clock in the rain. We anchored two or three miles from the city on account of the enormous size of our ship. This morning two or three hundred embarked in barges in the rain and landed in the city. They tried all the afternoon to re-embark on our ship, but the mighty swell of the sea under a heavy wind snapped the cables, and only five or six were dragged aboard by the stalwart sailors. The others had to return to the city. We were to sail for Malta at six, but will have to wait here all night for a calmer sea in the morning so as to take our friends aboard. My two girls wanted to visit the city this morning, but I said "No" so suddenly and sharply that they said no more about it. I am good enough sailor to go to and fro easily enough, but few others are, and there was nothing in Algiers of sufficient interest to me to take me thither in the rain. Mr. Frank Clark (he is the manager of the excursion) and the driver of the ship were caught ashore by the storm. My other girl—just Mary's age—is Greye Geiner, of Massachusetts. She is a delightful companion for Mary. She minds me as well as Mary does. Her camera, put together by herself, cost about one hundred and fifty dollars. It is the best on the ship and she is the most accomplished expert aboard. She takes pictures for the stereoscope as well as other kinds. We leave Greye in Egypt and she joins us at Haifa Palestine. I suppose she will then stay with us until we reach Paris or Liverpool.

All day we have sailed in sight of the blue enchantment of the African mountains. I never saw such restful and enchanting coloring on mountain or plain in any land. All day long the beautiful picture moved beside us like a thing of life. It really began at Gibraltar yesterday at 5 p. m. when the sun broke upon the rock and circular beach through the low hanging clouds. I stood high on the stern of the Celtic and feasted on the scene of variegated and kaleidoscopic beauty for half an hour as we moved out and steamed around Europa point. Then on the left for 100 miles the radiant picture continued on the Spanish coast. This morning at daylight it had moved across the sea to Africa where it still abides, although veiled at times by rain and clouds.

I have called Greye and Mary in from the deck where they have been promenading for half an hour, and sent them to their state rooms to prepare for bed, as they wish to rise early to witness the return of the passengers from the city. Greye's room is next to ours, but she takes her daily naps with Mary.

We are doing fully as well as we expected and things are really growing better each day. I hope we will have a rough sea to-morrow. It will do us all good and give

plenty of room for Mary, Greye and me to promenade for an hour or two.

We expect to anchor in the fine harbor of Valetta, Malta, sometime Sunday afternoon. (The ship could not enter the harbor, so Tibbs did not have the experience of a snake bite like another great man of whom we read.) Our delay here will throw us half a day late at Malta, but that leaves us enough time there.

Crisis in Religious Life, Says Dr. Lorimer.

In discussing "America's Religious Crisis," Rev. Dr. George C. Lorimer, pastor of the Madison-avenue Baptist church, New York, said: "Religion, especially evangelical religion, is to-day of very low vitality. The attendance at church service is shamefully small. We are attacked by secular writers. They tell us that the ministry is deteriorating; that the churches have lost their influence to the schools and that education alone can encompass all the activities of life. They say that the churches spend more for the superfluities of life than for the gospel, and point with scorn at the ice cream suppers and other cheapening methods of obtaining money to support the gospel. They condemn us for sending missionaries abroad when our people are spiritually starving at home. But, however true these accusations may be in part, they are overdrawn. They must be taken with an allowance. Yet a thoughtful man will not ignore them. He must admit that there is a crisis in American religious life.

"As has been said we live for money by day and pleasure by night. I have no fear in saying that at present rate at which we are living in fifty years we will have no Sabbath."

OFFICE OF THE COMPTROLLER OF THE DEPARTMENT, Washington, D. C., February 17, 1902.

"WHEREAS, By satisfactory evidence presented to the undersigned it has been made to appear that THE TRADERS NATIONAL BANK OF MT. STERLING, in the city of Mt. Sterling, in the county of Montgomery and State of Kentucky, has complied with all the provisions of the Statute of the United States, required to be complied with before an association shall be authorized to commence the business of banking.

Now, therefore, I, William B. Ruggley, Comptroller of the Currency, do hereby certify that "THE TRADERS NATIONAL BANK OF MT. STERLING," in the city of Mt. Sterling, in the county of Montgomery and State of Kentucky, is authorized to commence the business of banking as provided in Section 516 of the Revised Statutes of the United States.

IN TESTIMONY WHEREOF, witness my hand and seal of office this twentieth day of February, 1902.

A Preacher Criticises King Edward for His Bad Example.

In London, England, Thursday, March 6, there was a striking scene in the City Temple when, during the course of his sermon, the Rev. Joseph Parker, D. D., the minister, administered a pointed rebuke to King Edward, which was loudly applauded by the congregation. Having alluded to public houses as "trappings of hell," Dr. Parker referred to the King's recent bre-

There is a quality in Royal Baking Powder, coming from the purity and wholesomeness of its ingredients, which promotes digestion. Food raised by it will not distress. ing of beer while visiting Lord Burton. "Pray for me," said the divine, "that I may speak delicately, loyally. If the King brews beer, what can he wrong in the subject drinking it? What the King does is likely to be imitated by others. His Majesty is more than a man and must regard all questions from a kingly point of view. If the King goes to a Sunday concert, as he did recently, he deals a deadly blow to the Englishman's Sunday. The King cannot attend a nonconformist place of worship, but he can go to a Sunday concert."

This remark called forth cries of "Shame," and Dr. Parker continued: "If the King, who is the head of the church and defender of the faith, can violate the English Sunday, what can the people do but follow in his steps? I would rather give a great sum in gold than appear to be disloyal; but I cannot be disloyal to Christ, and it is better that these things should be said."

Ex Governor Altgeld Dead.

Ex-Governor of Illinois, John P. Altgeld, died at Hotel Munroe at Joliet, Ill., Wednesday morning, March 12. He was principal speaker at a pro-Boer meeting when he was seized with a sudden dizziness and had to be carried from the stage, in which condition he remained until death. In speaking of his death the Louisville Times says:

"John Peter Altgeld, who, next to Carl Schurz, has for a generation been the ablest and most conspicuous of German-Americans, is dead at Joliet, Ill., where he was suddenly stricken at the conclusion of an impassioned appeal in behalf of the Boers. He had served a term as Governor of Illinois, and brought upon his head a storm of censure—regarded by ex-Gov. Proctor Knott and many other able lawyers as entirely undeserved—by pardoning the penitentiary convicts of those convicted of the Haymarket assassinations. As chairman of the Illinois delegation Gov. Altgeld arranged for and led the stampede to Mr. Bryan in the National Democratic Convention in 1896, and in the crusade for free silver and other and better purposes that was preached through the ensuing four years, played to the limit the role of 'Peter the Hermit.' Aggressive, scholarly, intense as Saul of Tarsus, and somber as Calvin of Geneva, John P. Altgeld impressed himself upon his day and generation, and died, as he doubtless would have chosen to die, in the service of a people

nobly and desperately struggling against overwhelming odds for recovery of their subverted rights of life, liberty and the pursuit of happiness."

Gov. Beckham Appoints a Special Judge in Pike County.

Gov. Beckham on March 10 appointed and commissioned Attorney Robert Riddell, of Estill county, Special Judge of the Pike Circuit Court for the trial of the causes of Jamie Leslie against G. W. Pinson and others, in equity, now pending in that court. The cases involve the title and boundary of big tracts of land. The bar was unable to agree on a Judge to try the cases. Judge Riddell is one of the most eminent jurists in the State. He was on the bench for ten years.

**MT. STERLING  
 READY TO ROOM.**

After the passage of an ordinance on Friday night giving the proposed electric railway from Lexington to Mt. Sterling privilege over our streets, friends of a proposed line of steam railway from here to a connection with the Lexington & Eastern promised to have that road completed and cars running over it within 18 months, provided our people will secure from the City of Lexington the right of way free of cost.

Are our people ready for such a move?

Such a road would be worth much to Montgomery county and especially to that section long its route. It would add to our taxable property and return to Mt. Sterling the business that went to other points with the completion of the Lexington & Eastern.

The City Council at an adjourned meeting Friday evening, granted (with a slight modification) the franchise asked by the Blue Grass Traction Co., and recommended by the Men's Club. The line may come by Winchester, direct, by K. U. Junction or by way of North Middletown. This being considered the best paying line by either route and because of the prompt return on the part of our citizens, the intense interest taken by the Men's Club, Mt. Sterling will be one of the first reached.

Attorney John R. Abel, and Mr. Beatty, one of the stockholders, have assured our people that work of surveying and locating the line will be begun at once. The Council have acted cautiously and in accord with the wishes of a large majority of our citizens who believe the building of this road will create a fresh and continued impetus to business. The promoters think the road will be built within a year, and that much business will be added to our city, is the general opinion.

We hear much complaint of the service the electric plant is giving the city of Mt. Sterling and private consumers, and before a general complaint is put in we drop a hint. "A stitch in time."

**To the Board of Council of the City of Mt. Sterling:**

GENTLEMEN:—We, the undersigned members of a committee from the Business Men's Club, respectfully request your Honorable Body to adopt, and grant to the Blue Grass Consolidated Traction Company, the herewith attached franchise, together with the conditions thereof.

We further request that you act promptly in so doing; since we believe that the adoption of the said franchise and the building of the said road upon the conditions therein named will materially enhance the business interests of the City of Mt. Sterling.

Respectfully submitted,

**AN ORDINANCE.**

**GRANTING A RIGHT OF WAY AND FRANCHISE FOR ELECTRIC ROAD IN THE CITY OF MT. STERLING.**

*Be it remembered* that the Blue Grass Consolidated Traction Company, and their associates, hereinafter referred to as "said grantees," contracting, operating and maintaining a competing line of railroad from the City of Lexington to the City of Mt. Sterling, either through the City of Winchester or the City of North Middletown, or through K. U. Junction, and the further consideration that the benefits to be derived from said railroad by the City of Mt. Sterling and the citizens thereof.

*Be it enacted* by the Board of Council of the City of Mt. Sterling, in regular session convened on this 14th day of March, 1902, that said Blue Grass Consolidated Traction Company, and their associates, their successors and assigns, be and they are hereby granted the right of way, right, franchise and privilege for the construction, operation and maintenance of a standard gauge railroad for passengers, mail, express, and freight traffic upon or along Main Street in said City, west from Bank Street to the city limits, upon Bank Street, between Main and Locust Streets and upon Locust Street west from Bank Street to the city limits, property, in addition with any rights of way or routes or otherwise obtained, together with switches and turnouts, side-tracks, bridges, culverts, viaducts, and all things necessary for the proper operation and maintenance of said railroad, and, however, the said road should enter the city by way of the Level Turnpike, that said railroad should enter the city by Main Street, instead of over Main Street from the Meigs property to the city limits, subject to the following conditions:

*First.* That said railroad shall be so constructed as not to unnecessarily interfere with the public use of said streets for other travel, traffic, or transportation, and may be operated by electricity, compressed air, or other motive power, except steam.

*Second.* The profile, plan and route map of the proposed railroad, showing the exact location, grade, switches, turnouts, side tracks, bridges, culverts, viaducts, etc., shall be submitted for approval and shall be approved by the Board of Council of the City of Mt. Sterling before construction work is commenced. Actual work of construction on the road leading from Lexington to Mt. Sterling by one of the aforementioned routes shall be begun in good faith in Montgomery County in one year from July 1st, 1902, and a failure so to begin operations shall render this grant and franchise null and void at the expiration of said one year. Said road between Lexington and Mt. Sterling, by one of the three routes above named, shall be completed and in operation in two years from said date; and unless said road shall be so completed and in operation, this grant and franchise shall be null and void at the end of said two years. Construction work that requires the hauling of heavy material on the macadam of said streets shall not be done during the winter and spring months, between December the first and May the first, except with the consent of the Board of Council, or its authorized agents, and any injury done and streets in any way, shall be repaired by said grantees immediately.

*Third.* The said grantee shall forever keep and maintain in good condition and repair such portions of the macadam or metal of said streets as they actually use or occupy with their track by crossing the same, or otherwise; and said track shall be so laid as to conform to the present or established grade of the streets, and the space between the rails, and for two feet

outside thereof shall be filled with macadam, or other metal used upon said streets, to the level of the rails, and the same kept in good repair by said grantees. The said grantees shall furnish all material used by them in the repair or construction of said streets; and shall make said repairs uniform in character with the streets maintained by the city. All rubbish caused by the construction of the proposed railroad, and by subsequent repairs to the same, shall be promptly removed by said grantees. The crossings shall be so imbedded in the macadam as to bring the top of the rails down to a level with the surface of the roadway, and said grantees shall keep and maintain the macadam at such level between the rails and for two feet on each side thereof, and shall only use the most approved rails upon said streets and of the weight and style as may be approved by the Board of Council or its authorized agent.

*Fourth.* Said road shall be so constructed as not to interfere with the drainage of said streets, or obstruct the free flow of water from or along said streets, that wherever the construction of said railroad may interfere with the proper drainage or obstruct the free flow of water from or along said streets, said grantees shall provide and maintain sufficient drainage, either by open ditches or with culverts, pipes, and to the satisfaction of the Board of Council, or its authorized agent.

*Fifth.* That no change of the line, and of work shown in the above named profile of said railroad, shall at any time be made without the consent of the Board of Council, or its authorized agent.

*Sixth.* That through cars shall be run each way between Lexington and Mt. Sterling, at intervals of two hours or oftener, all day long, from six o'clock a. m. to eight o'clock, p. m., except that on Sunday and holidays, cars need not be started before nine o'clock a. m., and shall make regular stops at all places where the accommodation of the public demands it.

*Seventh.* That said grantees shall at all times defend, indemnify and save harmless the City of Mt. Sterling free from and against all just and lawful claims and demands for any injury to persons or property, costs of expenses, to which the City of Mt. Sterling may be subjected or made liable by any proceedings at law or in equity, growing out of this grant or franchise, or by the use of same by said grantees.

*Eighth.* That the poles to be used for carrying and supporting wires to conduct electricity as a motive power in the City of Mt. Sterling, shall be placed under the direction of said Board of Council, or its authorized agent, and so erected as not to unnecessarily interfere with travel on the streets, or with the gas or water pipes or telephone service thereon.

*Ninth.* All cars are to be heated in the winter season and to carry headlight and rear signal lights at night, and furnished with vestibules in the winter season.

*Tenth.* The rates of fare which said grantees may lawfully charge for the transportation of passengers within the limits of the City of Mt. Sterling shall not exceed five cents for one continuous trip.

*Eleventh.* It is especially agreed and understood that no franchise or right of way hereby granted is not exclusive and all conditions and restrictions herein set out are to run with the grant and franchise and shall be equally binding on said grantees, who shall, before taking control or charge of, or operating said railroad, file with the Board of Council written accept-

ance and consent to abide by and faithfully observe all of the said conditions and shall execute a bond similar to the one hereinafter provided for.

*Twelfth.* Before beginning work on said railroad, the said grantees shall execute bond with surety, to be approved by the Mayor of the city, in the sum of ten thousand dollars (\$10,000.00), conditioned upon said grantees faithfully observing and performing all of the conditions and stipulations of this grant and franchise and of any and all modifications thereof mutually agreed upon, which bond shall be filed with the Mayor of the city, and said grantees shall furnish other or additional bond and security at any time the same becomes inadequate on the demand of the Board of Council, and a failure to do so for sixty days after a written demand, shall, upon a vote of the Board of Council, operate as a suspension of the right to operate said road until the said additional bond or security shall be furnished.

*Thirteenth.* In the event the City of Mt. Sterling shall at any time grant a street car franchise upon and over its streets, the said city by and through its Board of Council shall have the right to relocate the tracks, bridges, turnouts, switches, etc., of the grantees herein upon and over the streets over which the right of way is hereby granted, and shall have the right to compel the grantees herein to move their tracks, turnouts, switches, etc., to said re-location when the said grantees under said street car franchise shall have completed the construction of their proposed line of street railway upon the other streets of Mt. Sterling over which they propose to build.

*Fourteenth.* The grantees herein agree and are to run sufficient freight cars each way, every day, between Lexington and Mt. Sterling to carry all freights offered, excluding live stock, between said points from intermediate stations therebetween. The rates for same shall not exceed the rate fixed therefor by the Railroad Commissioners of the State of Kentucky.

*Fifteenth.* If within three months from the acceptance of this franchise the Board of Council of Mt. Sterling, for and on behalf of said city, tender and supply deeds or other papers conveying a right of way by K. U. Junction, free of cost to the grantees herein, and over a route over which it is feasible to operate said road, the said road may be required by said Council to build by way of K. U. Junction and over said route.

*Sixteenth.* This right of way, grant, and franchise shall be null and void, unless accepted in writing by said grantees within the thirty days from and after the passage of same.

March 11, 1902.  
 C. H. BRYAN, Mayor.  
 THOS. D. JONES, Clerk.

This right of way, grant and franchise is hereby accepted, this 14th day of March, 1902.

# FACTS and OBSERVATIONS

At Morehead, Olive Hill and Denton—Success of Local Option.

OUT AFTER 'EM.

The writer had expected to be at Rowan Circuit Court on Tuesday but was detained by business, and in the evening attended the entertainment at the Opera House given under the management of the Lecture Course Association of our city. Mario, the Magician, was the star performer. We can not go into detail but will say we thank the manager for presenting to the public such a pleasing, refined and harmless exhibition. 'Twas surprising to see how many silver dollars, cards, yards of ribbon and live ducks were accreted about me who were supposed to be free from such things.

## MOREHEAD.

We were in town most of two days and quite while on the third and spent two nights there. We were much pleased with our observations and reports in regard to the use of whiskey. We did not see a single man or any men who appear to be drinking whiskey, lemonade or anything else which would interfere with the propriety of himself. We heard but little profanity. The licenses of all saloons in the county (except one at Brady about one mile from town), expired last August, and there is a determination that whiskey must go. For this reason we were especially interested.

We do not mean to say there was no whiskey in town: we anticipate that men accustomed to drink (some of them nice men, high-toned) will be tempted to smuggle the stuff into town, and some of them would even venture to do some lying in order to avoid detection. Is it not strange that men will act so? Think of it! Do we have to entreat men to protect, purify and ennoble themselves? Do we have to restrain others from doing violence to their neighbors? It looks that way. We were informed that the Police Judge had been almost without official recognition since the saloons were closed. We suggest that he go to pulling teeth.

Did you ever hear that old cry "Closing the saloons is killing the town?" (let her die, "the town is dead, there is no trade." Well, we heard that at Morehead. We sometimes hear people talk. We stand around and walk around and now and then ask a question. If people talk when our ears are open we must hear or walk off. We are to police to put finger in ears and say s-h-e, s-h-e.

On Friday afternoon that tall, rather slim young man (apparently from the country) was talking considerably in a quiet tone to an old man in front of the Court House. He was telling about how much shooting is going on in Olive Hill since the saloons closed; how he could take 50 cents and get lots of whiskey in town; how dead the town is; how he would quietly shoot a certain fellow if his boy was treated so and so, (and then he would use a curse word by way of emphasis), and how useless it was for the county to be put to such expense in trying to prosecute violators of law concerning whiskey, and when he confidently told the old man that there were SEVENTEEN writs against him and they amounted to nothing, he stepped to the pump (perhaps he was dry) and took a drink and

tackled the next man—yes, perhaps something is dying.

We trust that strong men, who can control their appetites, who can live without whiskey, will help save their weaker neighbors, by helping to enforce the law. Men, get a little more of the spirit of Christ, or of Paul in you, then you will recognize the obligation to save your fellowman from drink.

## CIRCUIT COURT.

Owing to the sickness of Judge Cooper the indications were that several cases would be continued.

J. E. Clarke was elected Special Judge. He intimated that he had his hands full of business and we suppose he had. The lawyers in attendance from Mt. Sterling were, A. T. Wood, B. F. Day and Earl Seal.

We stopped at the Cottage Hotel, convenient to depot, where our stay has always been pleasant.

## THE SIGNAL.

The enrollment for this term is 259; the attendance about 220 to 225. There are more young men and women in the school than we have noticed before. Brick work has now progressed about three feet on the walls of the third story of the College building. The indications are that the structure will not be ready for use at Commencement.

On Thursday morning at Chapel exercise Miss Susie Sublette, of Lexington, was present and spoke to the pupils. The writer conducted devotional exercises, and as usual when visiting the school made a short talk. We are much gratified to note the increased interest at the school, and sincerely hope that the people of Rowan will use their efforts to make everything favorable for its progress.

## OLIVE HILL.

C. L. White, the merchant, has sold his business to A. J. Stumpe & Co., and is now at Lee City on the O. & K. railroad, preparing to go into business there, having already bought property. N. D. Tabor is putting in the foundation for a brick store.

Since the first week in February J. P. White & Son have occupied their attractive large two-story brick, glass front business house. It is the house of the town.

We met Mr. M. D. Jordan, as Supreme Secretary of the Mutual Protection Society of the United States of America. He succeeded Mr. Jerome Duval, of Denton.

Through the courtesy of Mr. G. S. Perdue we saw some of the sights of the Harrison Walker fire brick plants while in operation.

We were handed a copy of the Olive Hill Dispatch, which has been issued only four times. Its publisher is Mr. H. T. Graham, a young man. His editorial this week says:

"The dispatch is for everything directly or indirectly calculated to improve the material and moral welfare of its town. This is its highest ambition. It is for more manufacturing, more business houses more good schools, more churches and more people, and as decidedly against saloons, drunkards and loafers, and all their attendant evils. Free from the whiskey curse so hurtful to many towns in our State. Olive Hill will not require much of a police force or a rock-ribbed jail. The Dispatch will have its hands full in looking after these matters with a sharp

eye—too full, perhaps, to dally with the old fashioned roses or the new-fangled varieties springing up in the alluring garden of politics. But in a choice of men for office—town, county or State—The Dispatch will occupy no neutral ground in its advocacy of those aspirants who it thinks can be trusted for an honest administration of affairs."

## DENTON.

We called here on Thursday. Kent Prichard had been sick since Sunday. Since I last called J. W. Cooksey & Son had sold their general merchandise to the Messrs. Webb.

Dr. W. H. Sparks had died of heart failure while playing with his children; his funeral service was conducted by his special friend, Rev. Geo. Justice, of Lewis county, on February 27. On Sunday morning, March the 9th Rev. Justice dropped dead. The new Baptist Church has been built since our previous visit. The ladies of the Methodist Church are planning to build a parsonage, and hope later to secure a church building.

We spent a few minutes socially with the family of Kent Prichard. His little daughter, aged about six years, is very attractive.

The Denton Hotel has an enviable reputation. Mrs. Duval surely knows how to please the public. A man who would find fault with her dinners deserves to be banished or shot. Mr. Duval is social, accommodating and hustling.

We arrived at home on Friday afternoon, and went to Powell Circuit Court yesterday (Monday).

The profit of a gold mine depends, not on the amount of rock crushed under the stamps but upon the amount of gold which can be extracted from the rock. In a similar way the value of the food which is eaten does not depend on the quantity which is taken into the stomach but upon the amount of nourishment extracted from it by the organs of nutrition and digestion. When these organs are diseased they fail to extract the nourishment in sufficient quantities to supply the needs of the several organs of the body, and these organs cannot work without nourishment. The result is heart trouble, liver trouble, and many another ailment. Dr. Pierce's Golden Medical Discovery, acting on every organ of the digestive and nutritive system, restores it to health and vigor. It cures diseases remote from the stomach through the stomach in which they originated. "Golden Medical Discovery" contains neither alcohol nor narcotics.

The Kid You Run Away From  
Beware of the dealer who tries to sell "something just as good."

Thursday and Friday, March 27 and 28, Mrs. Kate O. Clark will have her millinery opening.

Young women are made old before their time by the consequences of what are generally described as "female troubles." When disease withdraws a woman from the activities of life, robs her of all social pleasures, and even takes away the desire of living, she has practically reached the saddest condition of old age, when the aged is forced out of life's activities by weakness, and has no desire to live. For in a condition of health, youth clings to life, and loves to have part in life's duties and pleasures. And that condition of health it is the right of every young woman to enjoy. If she has it she should protect it as a priceless treasure. If she has lost it she should use every effort to regain it.

The way in which lost health may be regained and realized is pointed out by Miss Ebbets and Miss Siegel, whose portraits appear above.

The means of cure used by these young women are within the reach of every woman. There is no need to endure the backache and headache, the severe pains each month, the weakness, nervousness and general suffering which are a consequence of womanly diseases. All these pains and sufferings are cured by the use of Dr. Pierce's Favorite Prescription.

## A Blessing to Suffering Women.

"I do not wonder that you call your medicine the 'Favorite Prescription,' after the help it has been to me," writes Miss Bertha Ebbets, Treasurer, Young People's Society of Christian Endeavor, First Presbyterian Church, residing at 1505 East 10th St., Kansas City, Mo. "Was so weak and sick I could hardly raise my head, having constant backache and headache. Two bottles of Dr. Pierce's medicine made me a well woman, and since then it has been my 'Favorite Prescription,' too. Have advised a number of my friends who were suffering to use it, and have been gratified that it has helped all without exception. It does all that is claimed for it and more, too, and is a blessing to suffering women."

Miss Ebbets' statement that "Favorite Prescription" "does all that is claimed for it and more, too," is amply borne out by the statements of thousands of other women who have been cured by this medicine. No many times some sick woman is recommended by a friend to use "Favorite Prescription." She does so hesitatingly because good physicians have told her that she will have to endure her miserable

condition as long as she lives. She does not dream of being cured because the doctors have said she cannot be cured. So she begins taking "Favorite Prescription," only hoping to get partial relief from pain and weakness. If only the back wouldn't ache all the time. If she could only be relieved from the constant headache. If she could only be made a little stronger so that she might have some share in life's duties, that is all she asks. And then the first thing she realizes is that "Favorite Prescription" is curing her, and she keeps on until she is cured and is a perfectly well woman. Then, like Miss Ebbets, she advertises the medicine which cured her among her friends, and even puts aside her repugnance to publicity and endeavors, through the press, to show thousands of weak and sick women the way to health. The great achievements of Dr. Pierce's Favorite Prescription are the women it has cured.

## It Cured Me in Three Weeks.

"I had for nearly a year suffered with troubles peculiar to my sex," writes Miss Nettie Siegel, President Young People's Christian Temperance Association, residing at 202 Ralph Avenue, Brooklyn, N. Y., "and could find no relief until a friendly neighbor who had been cured by using Dr. Pierce's Favorite Prescription advised me to try it. I had little faith in it at first, but now have all the faith in the world, for it did for me what nothing else ever could; it cured me in three weeks and made life look different to me and I had some desire to live. Am truly grateful and have advised a number of sick, worn out women to use it. I know of several cases that have been cured of distressing female diseases, and feel that I am safe in endorsing it."

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. It is the best tonic and nerve for weak, run-down women, soothing the nerves, encouraging the appetite and inducing refreshing sleep.

Sick women are invited to consult Dr. Pierce, by letter, free. All letters are held as strictly private, and the written confidences of women are guarded by the same strict professional privacy observed by Dr. Pierce and his staff in personal consultations with weak and sick women at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y. Address Dr. R. V. Pierce, Buffalo, N. Y.

## Repairing Neatly Done

Never thought of such a sign for a medicine did you? Well, it's a good sign for Scott's Emulsion. The bottle has to be repaired like other things and Scott's Emulsion is the medicine that does it.

These poor bodies wear out from worry, from over-work from disease. They get thin and weak. Some of the bones are not well made—and all of the old ones are racked from long usage.

Scott's Emulsion fixes all kinds. It does the work both inside and out. It makes soft bones hard, thin blood red, weak lungs strong, hollow places full. Only the best materials are used in the patching and the patches don't show through the new glow of health.

No one has to wait his turn. You can do it yourself—yourself and the bottle.

Invitations are out announcing the marriage of Rev. William Wallace Horner, the popular pastor of the Shaysburg Baptist church, to Miss Verna Olivia Vannatta at the Clayville Baptist church, Shelby county, at 4 o'clock Thursday, April 3, 1902. At home at Shaysburg. Miss Vannatta is the daughter of Thomas Vannatta, a classmate and friend of the editor of the Advocate, is one of Shelby county's most charming young women. Fortunate is the preacher in winning the heart and hand of this fine young woman. A hearty welcome will be extended the bride by the membership of the pastor's charge at Shaysburg, and in them she will find the best of women, the elect.

**DEATHS.**

[All Obituary Notices, Resolutions of Respect, Cards of Thanks, etc., will be charged for.]

LOCKNAME.—Jno. W. Lockname a farmer living on Ruckerville pike, near Winchester, died on Friday of Consumption.

MORRIS.—John C. Morris, who married Miss Manie, daughter of W. S. Thomas, formerly of this city, died recently in Flemingburg.

LEWIS.—Mrs. Elizabeth Clark Lewis, aged 90 years, died at Paris last Thursday. She was the mother of Mrs. H. C. Howard, formerly of this city.

HOWELL.—The infant daughter of David Howell and wife died suddenly on Wednesday afternoon, March 12, 1902, aged 4 days. To them we express our sympathy.

LOCKHURST.—Sunday 10th at his home near Spencer, of consumption, Charles Lockhurst. Funeral Monday by Rev. Savage of the Cambridge Methodist church and burial in the Lockridge grave yard.

WEBSTER.—Sunday morning at his home near Grassy Lick of consumption, John Webster aged about forty-five years departed this life for the great beyond. He was a good citizen. Burial at Somerset.

WELLS.—The little daughter of Mr. and Mrs. Marc Wells of Spencer, died last Friday, March 14th, 1902, with a complication of diseases. Pastor W. J. Bolin conducted the funeral service at home after which the remains of the precious little one were laid to rest in the family burying ground. The bereaved ones have our tenderest sympathy. We commend them to the God of all grace for comfort in their sore trial.

WARNER.—Mr. Roger Gatewood received a message Sunday announcing the sudden death of his brother-in-law, Dr. George M. Warner, of Louisville, of heart affection, and to it responded in person. Dr. Warner was one of the most promising young physicians of Louisville. He married Miss Theo Hood, daughter of William Hood, formerly of this county, and sister of Mrs. Roger Gatewood. Mrs. Hood and two children, Susan and Ruth, aged fourteen and twelve years, survive him.

**RELIGIOUS.**

Rev. W. J. Bolin will preach at Howard's Mill Sunday afternoon at 3 o'clock.

Misses Bettie Roberts, Margaret Jones and Mr. John Jones were in Frankfort Sunday. They organized a Christian Endeavor Society in the Woman's ward at the Penitentiary with 27 members.

"It has been a great surprise and sorrow to many of us to learn of the resignation of Rev. Robert A. Thompson pastor of the North Yakima Baptist Church to take effect April 1st. Bro. Thompson came to the field nearly 18 months ago, and soon after his graduation from the seminary at Rochester, N. Y. He has served that large field faithfully and well, and the church has made rapid progress under his leadership. He is a good preacher, a magnetic speaker, and a faithful pastor. His place will not be easily filled.

The above clipping from a Washington paper concerning our own Robert Thompson brings us cheering news of one of "our boys" who is taking a brilliant part in the world's work. We know nothing of the Rev. Thompson's plans for the future, but we hope his resignation means that he is to return to Kentucky. A host of friends and admirers will join with us in this wish.

**W. C. T. U.**

On next Friday afternoon at Miss Pearl Bruton's school-room, the W. C. T. U. will have an open service celebrating the birthday of Neal Dow, the great temperance worker.

**A Change.**

I take this method of notifying my friends that I have accepted a position with Sutton & Harris, in the Undertaking Department. If occasion should arise for need of my services, I ask my friends to remember where they can find me. For years I have gone into the houses of sorrow in this community and have tried always to render the best service I was capable of giving. I promise to those needing me the same efficient and attentive service in future as in the past.

The house for which I am working has the finest Funeral Cars in this end of the State and will, as they have always done, keep a full line of up-to-date goods in stock. I am therefore in a position to promise my friends the very best of service when they shall send for me.

Thanking you for the confidence reposed in me in the past, I earnestly ask that I may be permitted to serve you in the future, when you shall be so unfortunate as to stand in need of my services.

GEO. C. EASTIN.

Having secured the services of Mr. Eastin, as the above card indicates, we now have with our house, three practical embalmers and funeral directors. The personal service of either is at the disposal of those who may need us by simply indicating such a preference.
